"**Section 265.230.** FORMULA TRANSITION SUPPLEMENT

(A)(1) As used in this Section, "funding base for fiscal year 2025" means the following:

(a) For a city, local, or exempted village school district, the sum of the district's payments for fiscal year 2025 under sections 3317.019, 3317.022, and 3317.0212 of the Revised Code, as those sections existed prior to the effective date of this section, and Section 265.290 of H.B. 33 of the 135th General Assembly;

(b) For a joint vocational school district, the sum of the district's payments for fiscal year 2025 under sections 3317.16 and 3317.162 of the Revised Code, as those sections existed prior to the effective date of this

section, and Section 265.290 of H.B. 33 of the 135th General Assembly;

(c) For a community school established under Chapter 3314. of the Revised Code or a STEM school established under Chapter 3326. of the Revised Code, the sum of the school's payments for fiscal year 2025 under all of the following:

(i) Section 3317.026 of the Revised Code, as that section existed prior to the effective date of this section;

(ii) Section 265.290 of H.B. 33 of the 135th General Assembly;

(iii) If the school is a community school, the equity supplement in section 265.285 of H.B. 33 of the 135th General Assembly;

(iv) If the school is a community school, section 3317.0212 of the Revised Code, as that section existed prior to the effective date of this amendment.

(2) For the purposes of this section, the Department of Education and Workforce shall calculate a "supplemental multiplier" for each city, local, exempted village, and joint vocational school district and each community school and STEM school, as follows:

(a) Calculate a district's or school's enrollment change measure using the following formula:

(The district's or school's fiscal year 2024 enrolled ADM – the district's or school's fiscal year 2022 enrolled ADM) / the district's or school's fiscal year 2022 enrolled ADM

(b) If the district's or school's enrollment change measure is equal to or greater than -0.05, the district's or school's "supplemental multiplier" is 1.0.

(c) If the district's or school's enrollment change measure is less than -0.05 but greater than -0.10, the district's or school's "supplemental multiplier" is equal to the sum of 1.05 and the district's or school's enrollment change measure.

(d) If the district's or school's enrollment measure is less than or equal to -0.10, the district's or school's "supplemental multiplier" is equal to 0.95.

(B) For fiscal years 2026 and 2027, the Department shall pay a formula transition supplement to each city, local, and exempted village school district according to the following formula:

(The district's funding base for fiscal year 2025 X the district's supplemental multiplier) - (the sum of the district's payments under sections 3317.019, 3317.022, and 3317.0212 of the Revised Code for the fiscal year for which the supplement is calculated)

If the computation made under division (B) of this section for a fiscal year results in a negative number, the district's formula transition supplement

for that fiscal year shall be zero.

(C) For fiscal years 2026 and 2027, the Department shall pay a formula transition supplement to each joint vocational school district according to the following formula:

(The district's funding base for fiscal year 2025 X the district's supplemental multiplier) - (the sum of the district's payments under sections 3317.16 and 3317.162 of the Revised Code for the fiscal year for which the supplement is calculated)

If the computation made under division (C) of this section for a fiscal year results in a negative number, the district's formula transition supplement for that fiscal year shall be zero.

(D) For fiscal years 2026 and 2027, the Department shall pay a formula transition supplement to each community school and STEM school according to the following formula:

[{(The school's funding base for fiscal year 2025 / the number of students enrolled in the school for fiscal year 2025) X the school's supplemental multiplier for the fiscal year for which the supplement is calculated} − (the sum of the school's payments under sections 3317.026 and 3317.0212 of the Revised Code for the fiscal year for which the supplement is calculated / the number of students enrolled in the school for the fiscal year for which the supplement is calculated)] X the number of students enrolled in the school for the fiscal year for which the supplement is calculated
